Chairman's Message

Dear Shareholders,

I am pleased to present to you our annual report for FY 2023-24, providing insight into the latest developments and performance highlights of Automotive Axles Limited.

Macro-economic perspective

The global economy continues to exhibit remarkable resilience, maintaining consistent growth, while inflation decelerates nearly as swiftly as it escalated. The journey has been marked by significant events, starting with supply chain disruptions in the aftermath of the Covid-19 pandemic, followed by an energy and food crisis triggered by the Russia-Ukraine conflict, and a substantial inflation spike, culminating in a globally coordinated tightening of monetary policy.

Amidst global economic fluctuations and persistent geopolitical tensions, India's economy stands out, exhibiting robust resilience, while maintaining its status as the fastest-growing major economy in the world. This stability draws its strength from the strategic policy implementations and regulatory measures, invigorated by a revitalised private sector, infusing strong momentum. The nation leverages substantial investments in emerging sectors, bolstered by Governmental initiatives, enhanced efficiency through digitalisation, and improved physical connectivity to help maintain the momentum of anticipated sustained economic growth. Looking ahead, India is poised for continued expansion throughout the decade, propelled by prudent investments, innovative policies, and a commitment to harness technological advancements for sustainable development.

Industry review

The Indian automobile industry achieved notable growth, registering a 12.5% increase in domestic production for FY 2023-24, propelled by robust economic expansion and favourable Government policies. Indian automakers continue to prioritise customer-centric strategies, including product diversification, customisation, and digital sales and services to thrive in this dynamic landscape. Moreover, strategic partnerships and investments in emerging technologies further drive competitiveness and market leadership. Positioned for significant transformation, the industry adeptly navigates technological innovation, changing consumer trends, and regulatory shifts with resilience and adaptability. Despite global uncertainties, the Indian automobile industry's commitment to innovation and sustainability ensures a positive outlook.

Notably, India's auto components industry is set to drive the future expansion of the automotive sector, with its sustained focus on competitive pricing, adherence to quality standards, and technological innovation, thereby creating a favourable outlook for robust growth expectation. Already a substantial contributor to India's exports, this projected surge highlights

the industry's potential to emerge as a global leader in the automotive supply chain.

Performance for the fiscal

I am delighted to announce another fiscal year of sustainable progress for us. Our total revenue stood at Rs. 22,449 million in FY 2023-24, compared to Rs. 23,286 million in FY 2022-23. Additionally, our EBITDA was Rs. 2,620 million, compared to Rs. 2,624 million, while our PAT grew marginally by 2.6% to Rs. 1,662 million, in contrast with Rs. 1,620 million recorded in FY 2022-23. We invested in state-of-the-art equipment and upgrades across our production lines to bolster our capabilities, with a greater focus on technological advancements. This strategic move aims to accommodate new models and variants swiftly, thereby ramping up productivity, enhancing agility, and meeting fluctuating volume and variant demands effectively.

Operational achievements

I am glad to communicate that our Axle assembly line and Housing Line 1 are now equipped with Industry 4.0 capabilities. This advancement enables us to eliminate losses, enhance Overall Equipment Effectiveness (OEE), and ensure product and part traceability.

Meanwhile, our CNC gear line operates with cutting-edge manufacturing equipment, adhering to stringent global standards. Utilising a fully-closed loop system with predictive capabilities, we effectively mitigate heat treatment distortion, ensuring the production of top-quality gears. By leveraging digitised masters and precise heat-treated gear part mapping, we consistently deliver precision parts that meet exact specifications. Moreover, our collaborations with blade suppliers leads to the development of ultrafine carbide blade materials with special coatings, fortifying speeds, feeds, and overall productivity. In our endeavour to deliver best-in-class products to our esteemed clients, we continue to invest in capacity building. This is exemplified by our recent investment in a new bore turning machine, catering to the growing export demand for gear bore and back face grooving. This further reinforces our position as a premier provider of high-quality gears for global markets.

Over the past three years, our Total Productive Maintenance (TPM) initiatives have yielded remarkable improvements in safety, quality, and productivity across our operations. Our Mysuru Plant received the prestigious TPM Excellence Award, affirming our dedication to continuous improvement and operational excellence

Responsible roadmap

We remain committed to deliver value-driven outcomes for all stakeholders. Leveraging our core capabilities and strengths, we continuously strive to produce high-quality products tailored to meet the needs of our OEMs.

We are dedicated to creating value through our sustainability strategy, placing a strong emphasis on conserving and responsibly using natural resources as a fundamental business imperative. Aligned with environmental sustainability goals, we actively work to mitigate environmental risks and drive positive impact including drive towards Net Zero, diversity.

We play a crucial role in empowering our workforce by fostering an environment of respect, trust, inclusivity, and diversity, which in turn cultivates a motivated and adaptable work environment. Recognising the invaluable contribution of our employees to our success, we prioritise their wellbeing and holistic development, aligning our values and culture accordingly. Moreover, we are nurturing a workplace culture that embraces and celebrates diversity, promotes equity, and facilitates inclusion through our Diversity, Equity, and Inclusion (DEI) initiatives.

At the core of our business strategy lies our commitment to uplifting communities around our operating locations. Prioritising healthcare, including preventive care, we ensure access to essential medical services for individuals and communities. We understand the significance of nurturing a holistic society, while simultaneously augmenting shareholder value creation.

“ The Indian automobile industry achieved notable growth, registering a 12.5% increase in domestic production for FY 2023-24, propelled by robust economic expansion and favourable Government policies.

In fortifying our governance approach, we go beyond conventional norms, placing utmost importance on enhancing long-term stakeholder value and fostering ethical business conduct. This year, we have adopted a Tax Transparency Report as a good corporate governance practice. Our corporate governance framework encompasses various aspects, including ethical corporate policies, code of conduct, human rights, and social impact. Furthermore, we ensure active engagement from all Board committees, guaranteeing oversight across business and Environmental, Social, and Governance (ESG) criteria. Through strategic oversight and controls, we conscientiously amplify Board participation and effectiveness in upholding our values and driving sustainable business practices.

Acknowledgement

As a representative of the entire Board, I extend our heartfelt gratitude to all our partners, with special acknowledgment to our customers, business associates, vendors and bankers, for their unyielding trust and continuous collaboration. I convey our sincere appreciation to our dedicated employees for their persistent commitment and tireless efforts that drive our success forward every day. Additionally, I express deep gratitude to our shareholders for their firm confidence in our Company and extend our appreciation to the Board of Directors for their invaluable guidance and support. Together, we continue to navigate challenges and seize opportunities, driving our Company towards greater success.

Regards,

Dr. B N Kalyani
Chairman

SECRETARIAL AUDIT REPORT

For the Financial Year ended 31st March 2024

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration of Management Personnel) Rules, 2014]

To,
The Members,
Automotive Axles Limited
Hootagalli Industrial Area, Off. Hunsur Road,
Mysore, Karnataka 570018

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Automotive Axles Limited (having CIN L51909KA1981PLC004198)** (hereinafter called the Company) for the financial year ended on 31st March, 2024 (the 'Audit period'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

I am issuing this report based on:

- (i) my verification of the Automotive Axles Limited's books, papers, minute books, forms and returns filed and other records maintained by the Company.
- (ii) The certificates confirming compliance of all applicable laws as submitted to the Board of Directors of the Company on a quarterly basis by the management.
- (iii) Representations made and information provided by the Company, its officers, agents, and authorised representatives during my conduct of the secretarial audit.

I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March 2024, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

A. I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March 2024 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;

- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits), 2014; Not applicable since no share based employee benefits are issued
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; Not applicable since no Debt securities are issued
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; Not applicable since the Company is not a Registrar and Share transfer agent
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; - Not applicable since the Company has not applied for delisting; and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; -Not applicable since the Company has not bought back any securities;

- (vi) No laws are specifically applicable to the Company
- B.** I have also examined compliance with the applicable clauses of the following:
- (i) Secretarial Standards issued by the Institute of Company Secretaries of India and notified by the Central Government.
- (ii) Uniform Listing agreements with the Stock Exchanges and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, and noted the following:

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above except that There is a delay in intimation to stock exchange on contra trade made by the designated person and subsequently profit of ₹8489/- earned on the transactions was transferred to the Investor Education and Protection fund of SEBI by the designated person.

C. I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review are carried out in compliance with the provisions of the Act. I would like to state the fact that one of the Directors was appointed subject to the appointment of the Central Government, the application of which is pending before the Central Government. Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance. A system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Based on the management representation, I report that the majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes, though no such views are available in the minutes and the management has informed that there were no dissenting views.

- D. I further report that** based on the compliance mechanism at the Company and based on the quarterly compliance report of the management to the Board, there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.
- E. I further report that** during the audit period, there are no specific events/actions having a major bearing on the Company's affairs in pursuance of the laws, rules, regulations, guidelines etc. referred to above.

Volatile organic compounds (VOC)	mg/Nm ³	51	70
Hazardous air pollutants (HAP)	-	0	0
Others – please specify (Phosphating - Acid mist)	mg/Nm ³	9	7

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)
If yes, name of the external agency.

No, Only monitoring & analysis is done for the air emissions. i.e. flue gas.

AAL Mysore - Ganesh Consultancy & Analytical Services (MoEF Recognised, FSSAI Notified).

AAL Jamshedpur - Jharkhand State Pollution Control Board, Adityapur & Environmental Laboratory & Engineering Services Pvt Ltd.

AAL Pantnagar & Hosur - No air pollution sources.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2023-24 (Current Financial Year)	FY 2022-23 (Previous Financial Year)
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tons of CO ₂ equivalent	*CO ₂ emissions- 5,800 MT	*CO ₂ emissions- 5,133 MT
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tons of CO ₂ equivalent	**CO ₂ emissions- 19,306 MT	**CO ₂ emissions- 17,982 MT

Total Scope 1 and Scope 2 emission intensity in terms of physical output		0.05	0.04
Total Scope 1 and Scope 2 emission intensity (optional)- the relevant metric may be selected by the entity.			

* Scope 1 CO₂ emissions from LPG, Diesel consumption

** Scope 2 CO₂ emissions from Power

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)
If yes, name of the external agency.

No

**8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.**

Yes, [Sustainability Key Initiatives](#) to contribute towards reducing carbon footprint and ensuring incorporation of sustainability across all operations, the Company focuses on various initiatives - using Solar Power, modern regenerative combustion technology for all furnaces, recycled water usage for gardening, reduced hazardous waste generation with recycle & recovery & adoption of ecofriendly waste disposal, implementation of scientific tree plantation to reduce atmospheric pollution etc. in its manufacturing operations.

1. Conventional method for CO2 Emission reduction through Renewable energy usage-Sources of Energy (Solar, Hydel, Wind)
2. Construction of new additional Rainwater Harvesting Storage Pond of capacity 1000 KL to increase in harvested rainwater capacity & reduces freshwater consumption for Achieving & sustaining 70% water positive.
3. Installation of Roof Top wind driven Turbo Ventilators across the plant to ensure adequate general ventilation under the renewal energy use initiative.
4. Year on year trees plantation internally & externally towards greenery enhancement.
5. Pipeline project – Installation of 30KLD capacity ETP with Zero Liquid Discharge (ZLD).

9. Provide details related to waste management by the entity, in the following format:

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

- Educating & creating Awareness on understanding the standard procedures on transport, storage & disposal of waste.
- Scientific Segregation & collection of waste at generation source with color coded bins.
- Separate storage compartments provision made for different types of hazardous waste generated.
- Hazardous waste is stored in leak proof area as per the standard guidelines and disposed to Pollution Control Board authorized recyclers/agencies.
- All types of other waste is segregated and stored in concreted scrap yard which is disposed to Pollution Control Board authorized recyclers as per the standard guidelines.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not Applicable			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Not applicable

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes, The Company complies with all applicable environmental laws.

S. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)
If yes, name of the external agency.

No

3. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Nil

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Filter Media replacement	The STP/ETP area – Filter Media replacement completed for STP (2 PSF & 1 ACF) and ETP (1 PSF & 2 ACF)	To improve the efficiency of the treatment process.
2.	Finished Goods packaging – wood packaging eliminated with reusable metal based stillages & pallets	Returnable, Reusable & rigid asset Safe & scientific handling of materials & around 80% of wood consumption reduction for dispatch	<ul style="list-style-type: none"> Natural Resource consumption reduction & solid waste generation reduction. 80% elimination of Wooden Pallets Packaging and also improving the transportation quality
3.	Scrap Yard Roofing	Construction of scientific Storage, Handling & Disposal of waste Scrap Yard Roofing for Other Waste storage area	To Prevention of accidental spill over & land contamination and Protection of waste from Rain, getting wet & causing pollution.
4.	Rainwater harvesting, collection, filtering & reuse & Ground water recharging	Additional Roof rainwater tank/pond is being constructed of capacity 1000 KL; the harvested water is being used for domestic & Industrial requirement & also for ground water recharging.	Fresh raw water consumption reduction & Natural resource conservation

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes

As a part of Business Continuity:

- We have warehouse at key customers location to maintain continuous supply and onsite VMI warehouse established for key suppliers/critical components.
- Multiple supplier bases have been established for all critical components.

As a part of Disaster Management:

- Well defined & documented Onsite Emergency Response Plan & Preparedness considering the related major disasters.

- 24/7 CCTV Surveillance systems; Manual Fire Call points provision & an emergency control room to respond immediately to any unforeseen adversities.
- Periodical Onsite Emergency Mock drill & weekly Fire drill conducted with different emergency scenarios to check & ensure our readiness to combat any emergency.
- Early warning, gas & smoke detection, CO2 flooding system provision made in fire sensitive/fire prone areas.
- Part of Onsite emergency plan & preparedness, Mini fire tender with technology of Compressed Air-Foam System-CAFs is available.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Supplier is expected to implement its binding Supplier code of conduct and make reasonable efforts to promote the Code's principles and establish environmental management systems (ISO 14001) and continuously improve environmental performance.

During the current fiscal year, the Company screened its critical suppliers (80 numbers) using social and environmental criteria and found no negative social or environmental impacts on its value chain.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

80%

PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/ associations.

The Company is a member of 5 trade and industry chambers/ associations.

Directly sourced from MSMEs/ small producers	32%	32%
Sourced directly from within the district and neighboring districts	14%	14%

5. Job Creation in smaller towns- Disclose wages paid to persons employed (including employees or workers employed on a permanent or no-permanent/ on contract basis) in the following locations as % of total wage cost

Parameter	FY 2023-24 (Current Financial Year)	FY 2022-23 (Previous Financial Year)
Rural	0	0
Semi-Urban	0	0
Urban	100%	100%
Metropolitan	0	0

(place to be categorized as per RBI Classification System-rural/semi urban/urban/metropolitan)

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

The Company has not taken any Social Impact Assessment as it is not applicable to it.

Details of negative social impact identified	Corrective action taken
	Nil

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

None

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)

No, the Company does not have any preferential procurement policy focusing on suppliers from marginalised/ vulnerable groups. It follows a standardized Code of Conduct for Suppliers and Service Providers.

- (b) From which marginalized /vulnerable groups do you procure?

Not Applicable

6. Details of beneficiaries of CSR Projects:

(a) We remained dedicated to improving public health by maintaining the Public Convenience Facility at Chamundi Hills, Mysuru. This facility plays a crucial role in promoting hygiene and public health in this renowned tourist destination.

(b) We took a significant step in addressing hunger, poverty, and malnutrition by sponsoring the construction of part of an Annadana Hall, led by ISKCON Mysore. This initiative aligns with our dedication to social welfare and community development. The primary objective of the Annadana Hall is to provide free, nutritious meals to those in need. Our collaboration with ISKCON Mysore ensures that the project is managed by an organisation with a proven track record in community service and food distribution. Their expertise is crucial in making the Annadana Hall a sustainable and impactful endeavour.

(c) Our CSR initiatives from the past year underscore our commitment to improving educational infrastructure and fostering skill development within our communities. Through our support of local primary schools, we strive to create lasting positive impacts on the educational landscape. Our partnerships with implementing agencies ensure that our efforts reach those most in need, providing every deserving student with the opportunity to succeed.

In line with our commitment to skill development, we've partnered with Vidyavardhaka College of Engineering to establish a Skill Development Centre. This initiative aims to equip students with the technical and soft skills necessary to excel in today's rapidly evolving job market. The centre offers hands-on training in emerging technologies, including metallurgy.

- (d) We are working towards reduction of greenhouse gas emissions to create a more sustainable future for generations to come. For achieving the same, we are planting trees as much as possible in and around Mysuru city and protecting the saplings by using tree guards.
- (e) We've extended financial support to animal welfare organisations and implementing agencies dedicated to animal rescue, shelter management, and veterinary care.

4. **Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief.**

Yes, The Company's products are Original equipment manufacturer (OEM) specific, the Company displays product requirements on packaging consistent with applicable laws and as per OEM requirements. Typical information displayed on product includes details of manufacturer, heat code, process no., dispatch no., part no. etc.

Guidelines to customers about eco-friendly re-cycle methods for axle waste handling. Instructions includes the oil contents from end-of-life axles, Metals, Rubber, Plastics and other non-biodegradable parts and to be recycled without environmental pollution.

5. **Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)**

Yes, Customer response and customer satisfaction feedback are one of the most important factors. The Company engages with its customers at various platforms to understand their expectations and take their feedback for improvement.

Management Discussion and Analysis

Global Economy

The world economy is projected to maintain a growth rate of 3.2% throughout CY2024 and CY2025, consistent with the pace observed in CY2023, as stated by the International Monetary Fund (IMF). Advanced economies are expected to undergo a slight acceleration, while emerging market and developing economies may experience a modest slowdown. Global headline inflation is forecasted to moderate, declining from an annual average of 6.8% in CY2023 to 5.9% in CY2024 and further to 4.5% in CY2025. This decline is attributed to a more front-loaded decrease in advanced economies, with inflation expected to return to near pre-pandemic levels sooner than in emerging market and developing economies.

Advanced economies are poised for a slight uptick, primarily driven by the euro area's recovery, with growth rates projected to climb from 1.6% in CY2023 to 1.7% in CY2024 and 1.8% in CY2025. In contrast, emerging market and developing economies are expected to sustain stable growth at 4.2% during CY2024 and CY2025, although regional disparities exist, with growth moderation in Asia counterbalanced by growth in the Middle East, Central Asia, and sub-Saharan Africa.

Global Economic Growth (% change)	Year-on-Year		
	Estimate	Projections	
	CY2023	CY2024	CY2025
World	3.2%	3.2%	3.2%
Advanced Economies	1.6%	1.7%	1.8%
Emerging Markets and Developing Economies	4.3%	4.2%	4.2%

Source: International Monetary Fund (IMF)

The global economic outlook is expected to remain steady, with growth hovering around 3.2%. This stability is underpinned by several key factors. The rebound in labour supply, fuelled by robust immigration flows in advanced economies, contributes to economic resilience. Additionally, the gradual fading of earlier energy price shocks alleviates pressure on inflation. Decisive monetary policy actions, coupled with improved frameworks, particularly in emerging markets, have been instrumental in stabilising inflation expectations.

Looking ahead, certain actions are crucial for enhancing medium-term growth prospects globally. Rebuilding fiscal buffers is essential, as it helps lower funding costs and improves financial stability. Facilitating faster resource

allocation can boost growth by enhancing efficiency and productivity. Addressing geoeconomic fragmentation is imperative to mitigate potential losses in efficiency and foster greater global cooperation. Moreover, intensifying efforts towards a green and climate-resilient future is critical for sustainable economic development, necessitating substantial investments in green technologies and initiatives. In navigating these challenges and seizing opportunities, multilateral cooperation is crucial for addressing complex global issues to drive progress and economic stability.

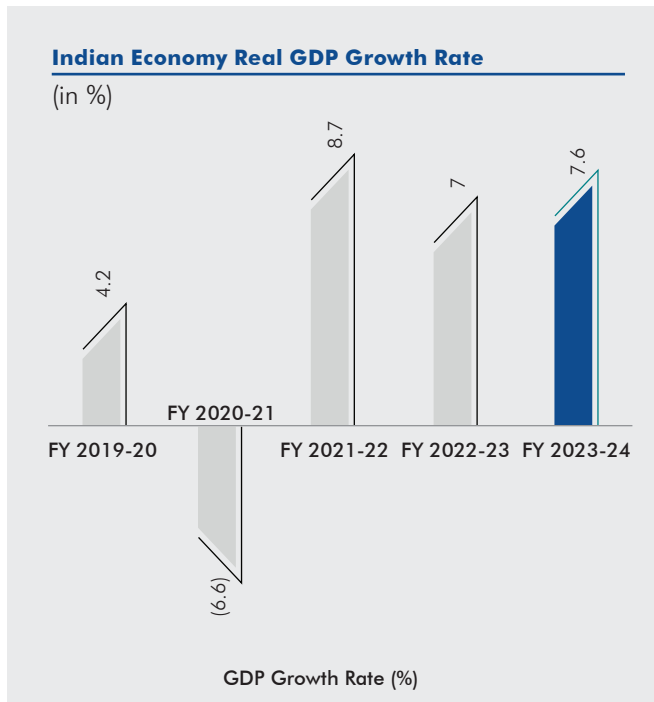

Indian economy

In FY 2023-24, India exhibited remarkable economic resilience, achieving a notable growth rate of 7.6%. This achievement was driven by various factors contributing to the nation's economic vigor. Improved corporate and bank balance sheets provided a stable foundation, instilling confidence in the financial sector. Additionally, a resurgence in rural consumption, supported by favorable agricultural conditions and government initiatives, significantly bolstered economic momentum.

Moreover, there was a distinct increase in private consumption, reflecting heightened consumer confidence and purchasing power. This resilience in domestic demand was evident despite challenges posed by the global economic landscape. Evidence of this resilience was seen in the notable rise in e-way bills and toll collections observed in February 2024, signaling sustained economic activity and trade flows within the country.

Furthermore, proactive investments by the Indian Government in public infrastructure and the financial sector played a crucial role in enhancing economic stability amidst external uncertainties. These investments not only stimulated economic growth but also strengthened the nation's capacity to withstand global shocks, ensuring continued progress and development.

Looking ahead, the Indian economy is poised for further growth and advancement. Projections indicate a trajectory towards reaching the USD 7 trillion milestone by 2031, solidifying India's position as the world's third-largest economy. Capital and productivity enhancements, facilitated by a comprehensive integration of digital and physical infrastructure, will drive this growth. Additionally, the manufacturing sector is expected to undergo a revival, leveraging global opportunities, domestic policy support, and a focus on transitioning to green energy.

Indian Automobile and Industry

Against the backdrop of robust economic growth driven by favourable government policies, the Indian automobile industry demonstrated a satisfactory performance in FY 2023-24. The domestic industry witnessed a significant upsurge, growing by 12.5% to reach 2,38,53,463 units, compared to 2,12,04,846 units in the previous year.

Leading the growth trajectory was the Passenger Vehicle segment, which recorded overall sales of nearly five million units, including 4.2 million domestic sales (an 8.4% increase) and 0.7 million units in exports.

In the Commercial Vehicles segment, the industry experienced marginal growth, reaching 9.7 million units. However, there was a slight decline in the Light Commercial Vehicles (LCVs) and Small Commercial Vehicles (SCVs) categories, attributed to a decrease in demand for CNG vehicles. Additionally, the migration towards higher tonnage trucks, providing increased payload capacity, impacted the growth in CVs, although not reflected in the number of units sold. The Three-Wheeler industry also witnessed significant growth, nearing the peak of 0.7 million units seen in 2018-19.

Optimism abounds within the industry as the macroeconomic outlook remains positive. Enhanced by a promising monsoon forecast, the industry anticipates sustained growth in the coming year. Furthermore, increasing interest from companies in penetrating rural markets has further propelled sectoral growth. The burgeoning logistics and

passenger transportation industries are driving the demand for commercial vehicles, indicating a promising future for the market.

Looking ahead, the industry foresees growth opportunities stemming from emerging trends, particularly the electrification of vehicles. The focus on electrification is expected to be particularly pronounced in segments such as three-wheelers and small passenger automobiles, shaping the future trajectory of the automotive market in India.

Indian Automotive Component Industry

India's automotive industry plays a pivotal role in the country's manufacturing economy, with the auto component manufacturing (ACM) segment providing crucial support. Over recent years, India has witnessed a significant increase in the number of Original Equipment Manufacturer (OEM) suppliers in the ACM segment, positioning the country as a prominent player in the global automotive supply chain.

Domestically, the ACM market has made substantial strides within the automotive sector, contributing over 2.3% to India's Gross Domestic Product (GDP). Furthermore, it directly and indirectly employs upwards of 1.5 million individuals, making it a vital source of employment nationwide.

As of 2023, the Indian auto component industry boasts a valuation of approximately US\$57 billion, with projections indicating a climb to US\$85 billion by 2026, as reported by the Indian Investment Grid. This growth trajectory is fuelled by escalating demand, advancements in product quality, and bolstered competitiveness.

Internationally, there has been a notable shift in sentiment towards sourcing from India. Despite recessionary trends in key markets, export growth surged due to this positive sentiment, bolstered further by the adoption of diversification strategies such as "China+1."

Moreover, there are emerging opportunities for export-oriented production in India, particularly for traditional components like castings, forgings, and injection modules, which may not be as viable in Western markets but hold promise in India's manufacturing landscape.

Furthermore, several factors are expected to positively impact Indian auto component suppliers in the medium to long term. These encompass increased supplies to new platforms, higher value addition, and the potential for aftermarket demand in overseas markets. Additionally, opportunities in the EV segment, vehicle premiumisation, localisation efforts, and evolving regulatory norms are anticipated to contribute to stable growth for auto component suppliers, driven by higher content per vehicle.

Welcome to the World of Automotive Axles Limited

Automotive Axle Limited (AAL) is a distinguished joint venture between the esteemed Kalyani Group and Meritor Inc., USA, established in 1981. As a prominent entity in India, we specialise in manufacturing Rear Drive Axle Assemblies, S-Cam actuated quick-change air brakes, and trailer axles catering to vehicles within the 10 to 13 tonnes gross vehicle weight (GVW) range.

Throughout our journey, we have cultivated unparalleled expertise, positioning us as a leader in both domestic and international markets. Our clientele spans across various segments, including light, medium, and heavy commercial vehicles, military vehicles, and off-highway vehicles. Our extensive product lineup encompasses front steer axles, defence axles, off-highway axles, drive and non-drive axles, drum brakes, and gear sets.

With manufacturing facilities strategically located across India in Mysuru (Karnataka), Rudrapur (Uttarakhand), Jamshedpur (Jharkhand), and Hosur (Tamil Nadu), we ensure adherence to top-tier manufacturing standards at every step. Our commitment to quality is ingrained in our processes, ensuring that our products meet global benchmarks. Furthermore, our association with Meritor Heavy Vehicle Systems LLC USA, being a technology partner, enhances our capabilities in product engineering, validation and testing, and aftermarket re-engineering.

Listed on the National Stock Exchange of India Limited and BSE Limited, AAL stands as a beacon of excellence in the automotive industry, poised for continued growth and innovation.

Our Vision

To be a world-class quality manufacturer of axles, providing innovative solutions to customers at competitive price that enhance mobility, safety and environment and retain leadership.

Our Strengths

Our commitment to delivering world-class quality products is unwavering, supported by key pillars that drive our business forward:

- **Rich experience:** With over 42 years of experience, particularly in the Indian and Asian markets, we possess invaluable market insights and a keen understanding of customer requirements. Our emphasis on innovation and cost-effective solutions ensures that our customers can trust in the reliability of our offerings.
- **Competitive Edge:** Our skilled workforce and technical prowess empower us to provide tailor-made products and services to our clientele. Additionally, our joint venture with Meritor Heavy Vehicle Systems LLC, USA, positions us at the forefront of technological leadership. During FY 2023-24, we've introduced several Value Engineered products and variants, providing our customers with a competitive edge.
- **Quality-Driven:** We continuously elevate our quality standards through the adoption of internationally acclaimed methodologies such as Built in Quality, 5S, and Six Sigma processes. Our commitment to zero tolerance for defects is ingrained within our teams, ensuring that only the highest quality products reach our customers. We have embraced Total Productive Maintenance (TPM) as a cultural ethos to improve process consistency and, consequently, enhance quality.
- **Best in-Class Facilities:** With state-of-the-art manufacturing facilities boasting advanced gear cutting technology such as Face Hob machines and Robotic Welding processes, along with a new axle assembly line integrated with Industry 4.0 technologies featuring digital interlocks and robotic painting, we remain committed to delivering products of unparalleled quality and reliability.
- **Esteemed Clientele:** With a broad client base across India and an expanding foothold in global markets such as China, USA, France, Italy, Brazil, and beyond, we are committed to nurturing strong partnerships. We leverage the latest technological solutions, including e-Axle, to support the manufacturing of electric vehicles, thus staying ahead of industry trends and meeting evolving customer needs.

Our Certifications

- **Certified with ISO 14001:** 2015 for Environmental Management and ISO 45001:2018 for Occupational Health and Safety, showcasing our dedication to sustainability and workplace safety.
- Awarded Level-2 certification from JUSE, Japan for adhering to the 5S Standard, with our commitment to excellence reaffirmed through a re-certification audit by QCFL in collaboration with JUSE, Japan in December 2023.
- **Certified for IATF 16949:** 2016 – Quality Management System.
- Total Heat Treatment Process is certified with CQI 9.
- Overall Welding processes certified with CQI 15.

SWOT Analysis

Strength

- Technology integrated into product design with state-of-the-art manufacturing facilities.
- Leadership in Axles & Brakes design.
- Recognised as one of the leading manufacturers of Rear Drive Axle Assemblies in India, experiencing steady growth in exports.
- Enhanced product quality achieved through the adoption of global best practices on the shop floor.
- Boasting a diverse customer base and fostering strong relationships with clients.

Opportunities

- Increasing sophistication of vehicles, including the production of alternative fuel-enabled vehicles.
- Rapidly growing domestic and overseas demand and market expansion.
- Anticipated rise in installed capacity among many OEMs, leading to increased auto-component sales.

Weakness

- Slowdown in the automotive industry may have adverse impacts.
- High capital and interest costs pose challenges.

Threats

- Increase in import costs for the auto-component industry due to rupee depreciation.
- Competition from parent International Equipment Manufacturers (IEMs) establishing manufacturing units in India.
- Disruption caused by technological advancements.

Awards and Recognitions

We have been acknowledged by various institutions and customers for our ongoing endeavours to enhance operational excellence and provide top-tier products:

- Successfully achieved TPM Excellence Category A Award-2023 after completing both First Stage Assessment on July 14th, 2023, and Second Stage Assessment on January 8th, 2024. Honored at the ceremony held in Kyoto, Japan on March 20th, 2024.
- Recognised as the 'Supplier Samrat Regional Competition Runner-up' by Ashok Leyland.
- Received Gold Award for Best Performance in ESG from Ashok Leyland
- Secured 20 Gold Awards and 1 Silver Award at the Mysuru Chapter Convention on Quality Concept-CCQC Kaizens competition organised by Quality Forum of India-QCFI (CCQC-2023).
- Received 5 Excellence Awards in the NCQC-2023 Allied Case Study Presentation competition during the National Convention on Allied Concepts.
- Received Gold Awards with 2 teams in the ICQCC-2023 Allied Case Study Presentation competition at the International Convention on Allied Concepts.

Operational Highlights of FY 2023-24

At AAL, we have adopted cutting-edge equipment and technology to deliver world-class products that meet global requirements. During the year under review, we have invested in advanced technology equipment and equipment upgrades for our production lines to meet new models and variants, with a focus on improving productivity, maintaining flexibility, and quickly responding to varying volume and variant demands.

Gear Line Key Improvements

Our CNC gear line is equipped with cutting-edge gear manufacturing equipment that adheres to global standards. We have implemented a fully-closed loop system with prediction to counter heat treatment distortion, allowing us to produce gears that meet the highest standards. With digitised masters and the ability to map heat-treated gear parts, we are able to produce precision parts that meet exact specifications.

We have also collaborated with blade suppliers to develop special ultrafine carbide blade materials with special

coatings, improving speeds and feeds and significantly enhancing productivity. Additionally, we have installed a new bore turning machine for gear bore and back face grooving to support our growing export demand. These investments in equipment and processes have enabled us to maintain our position as a leading provider of high-quality gears for global markets.

Industry 4.0 Implementation

Our Axle assembly line and Housing Line 1 has been enabled with Industry 4.0. This enhances our capability to eliminate potential losses and improve Overall Equipment Effectiveness (OEE) and also supports in product and Part traceability.

TPM Implementation

Over the course of the last three years, we are adopting the principles and practices of Total Productive Maintenance (TPM) to bolster Safety, Quality, and Productivity by systematically identifying and mitigating losses across our operations. Our commitment to TPM practices has yielded significant results, culminating in the successful completion of both first and second stage assessments by the Japan Institute of Plant Maintenance (JIPM). With the two stage of assessment by JIPM our Mysore Plant has been awarded TPM excellence award in March 2024.

Our Mysore Plant received TPM Excellence Award, affirming our dedication to continuous improvement and operational excellence.

Market and Business outlook

India's burgeoning auto market is on track to achieve a significant milestone, with forecasts indicating a staggering value of USD 300 billion by 2026. This growth trajectory is propelled by several factors, including escalating income levels, rapid urbanisation, and the expanding purchasing power of the middle class. Leveraging our profound understanding of real-world applications, we are poised to capitalise on this market expansion. By introducing key new products, we anticipate not only bolstering our market share but also gaining a competitive edge. Furthermore, investments in the modernisation of our gear and housing manufacturing lines will enhance productivity and optimise costs, enabling us to meet peak market demands. Implementation of TPM activities at our JSR and PNR plants is poised to yield long-term benefits. Our overarching objective is to surpass market growth by introducing innovative products while maintaining a steadfast focus on cost competitiveness, productivity, and quality.

Tax Transparency and Reporting

We began publishing an annual 'Tax Transparency Report' from this financial year. The Tax Transparency Report is a voluntary disclosure we publish on our website to cater to the information needs of all our stakeholders. We prioritize corporate governance and transparency in managing our tax affairs. Tax transparency report can be accessed in our website <https://www.autoaxle.com/Governance.aspx>

Quality Management

Our dedication to achieving the utmost production quality is reflected in our adoption of modern manufacturing techniques. Through the implementation of the Quality Management System (QMS) and Lean Manufacturing System (LMS), we reinforce our commitment to the Built-In Quality (BIQ) approach while minimising coolant, oil, and chip (COC) waste. The Automotive Axles Production System (APS) has been integrated into our operations to streamline processes, alongside the application of principles such as Gemba, Six Sigma, and 5S to optimise manufacturing procedures.

To uphold stringent quality standards, we have established robust quality systems including IATF 16949:2016, CQI9 for heat treatment processes, CQI15 for welding processes, and OHSAS for environmental, occupational health, and safety management.

In our pursuit to become a benchmark organisation in the industry, we have initiated a company-wide Total Productive Maintenance (TPM) excellence programme to focus on

operational excellence which serves as a key differentiator in the marketplace, positioning us as leaders in our field.

Human Resource Management

Our employees are the lifeblood of our organisation. We are focused on creating a positive work environment by addressing employee concerns, promoting a culture of open communication which shapes & maintains the company culture. We are keen in identifying & attracting right & skilled individuals who help us build a workforce that is both dynamic & dedicated. We also intensively guide our organisation through the change management processes during any significant changes. This not only helps our organisation & our employees but engage them to contribute on value creation and strategy.

Our focus continues to rely on:

- Building a diverse talent is a key priority as diversity brings a wealth of perspectives, enhances creativity and drives innovation.
- Comprehensive employee development initiatives are aimed at enhancing the skills, knowledge and capabilities of our workforce through structured onboarding programmes, continuous learning opportunities and career development plans.
- Fostering agile, ethical & positive culture that encourages inclusiveness, innovation, resilience & cohesive mindset.

- Elevating performance by creating an environment that encourages innovation & creativity which fuels our ability to develop new products, services & solutions.
- Building strong employee relations and promoting engagement as they become more approachable, empathetic, and skilled in conflict resolution, which helps in maintaining a harmonic work environment. This significantly boosts our employee morale and loyalty.

Culture at AAL

At the heart of our organisation lies a vibrant and inclusive culture that we uphold at every juncture. Our core cultural objectives serve as guiding principles, shaping our interactions and operations. Foremost among these objectives is our unwavering commitment to treating all employees with respect and dignity, fostering an environment where every individual feels valued and empowered. Embracing the ethos of continuous improvement, we strive for excellence in all facets of our endeavours, consistently seeking innovative solutions and refining our processes. Central to our culture is the promotion of a collaborative and performance-driven ethos, where teamwork and innovation are celebrated as drivers of success. Through these foundational values, we cultivate a dynamic and supportive culture that propels us towards our collective goals and aspirations.

Moreover, we recognise that diversity and inclusion are integral to our success. We champion diversity in all its forms, embracing unique perspectives and experiences to drive innovation and creativity. By fostering an inclusive environment where every voice is heard and respected, we harness the full potential of our diverse workforce, enabling us to thrive in an ever-evolving global landscape.

Acquiring and Retaining Talents

Onboarding diverse talents is foundational to our organisation's success and growth. We are dedicated to promoting diversity and inclusion as core principles, fostering a culture of creativity and innovation by embracing unique perspectives and ideas.

Central to our sustained growth is the development and retention of our talent pool. We conduct rigorous skill assessments and competency mappings to ensure everyone's strengths are utilised effectively. We collaborate with employees to create personalised career development plans aligning their goals with organisational needs. Comprehensive training programmes covering technical and soft skills facilitate continuous learning and upskilling.

Furthermore, we value exposure and diverse experiences, encouraging job rotations to broaden skill sets. We invest in nurturing future leaders through executive mentorship and coaching programmes aimed at developing leadership skills.

In essence, our commitment to diversity, talent development, and inclusive leadership propels our organisational success and resilience in a dynamic business landscape.

Employee Engagement

We prioritise fostering a collaborative and motivated work environment, exemplified by our commitment to the 'One AAL' concept across all our locations.

Employee Surveys: Regular surveys are conducted to gauge employee satisfaction levels, identify their needs, and gather suggestions for improvement.

Inclusive Culture Initiatives

- **Family Day:** We organised Family Day events to promote an inclusive workplace culture, inviting employee families to visit the workplace. This fosters transparency and trust, allowing families to witness firsthand the work environment and celebrate employee milestones and achievements.
- **Cultural Celebrations:** We celebrated cultural diversity through local festivals, highlighting various traditions and customs.
- **Recreational Activities:** Annual sports and cultural days are organised, featuring a range of indoor and outdoor activities. These events encourage interaction among employees from different departments, fostering a more cohesive and integrated work environment.

Health & Wellness Programmes

- **Saamarasya:** A NLP-based programme aimed at enhancing positivity and solution-based thinking. This programme has benefited over 300 employees.
- **Soukhya:** A wellness initiative featuring fitness sessions conducted by a dedicated expert team. Customised fitness tips are provided to employees to improve their physical well-being.

Feedback & Communication: Organised regular town hall meetings for employees to voice their opinions and engage in discussions with the leadership team regarding company updates and initiatives.

Work-Life Balance Initiative: Introduced a 5-day working policy for staff members facilitates a healthier balance between personal and professional commitments, supporting employee well-being.

Employee Recognition and Rewards

Employee Appreciation Day: Recognising and rewarding our employees is a crucial element in the workplace as it significantly contributes to employee motivation, performance, and overall job satisfaction. Therefore, we continue to host our "Employee Appreciation Day" every month to honour employees who have demonstrated continuous improvement in productivity, quality, cost, delivery, safety, environment, and morale. This programme provides an opportunity for all employees to showcase their achievements to the leadership team. The appreciation day acknowledges various award categories such as On-the-Spot Awards, Kaizen Awards,

Quality Awards, Safety Awards, etc., to recognise their efforts across various pillars.

Best Employee of the Year Award: The Best Employee of the Year award is presented to the top performer of the year. A panel consisting of cross-functional leaders selects the top performer from the nominated list of employees across all functions based on their technical competence, achievements, and team management skills. This award serves as motivation for the employee to strive towards excellence in their roles, knowing that outstanding performance will be acknowledged. Additionally, it inspires other employees to put in extra effort, fostering a more engaged and enthusiastic workforce.

Learning and Development

Learning and Development are indispensable in today's fast-paced and ever-evolving business landscape. To ensure our workforce remains skilled and adaptable to meet current and future challenges, we persist in investing in talent development through comprehensive training programmes encompassing both technical and soft skills at various levels.

In FY 2023-24, we introduced the Campus to Corporate Training initiative aimed at facilitating a seamless transition for campus recruits into the corporate mindset. This programme equips them with the necessary skills and knowledge to excel in their roles from the outset.

Furthermore, we recognise the importance of nurturing key talents for managerial and leadership roles. To support their growth and retention, we offer developmental trainings such as Supervisory Development, Managerial Development, and Leadership Development programmes. These initiatives not only enhance their skill sets but also empower them to take on greater responsibilities and contribute to the organisation's success.

Diversity, Equity & Inclusion Initiatives (DEI)

Our Diversity, Equity, and Inclusion (DEI) initiatives are central to cultivating a workplace culture that celebrates diversity, promotes equity, and fosters inclusion. We prioritise DEI efforts to unlock the full potential of our employees, drive innovation, and cultivate stronger connections with employees, customers, and communities. Our commitment to DEI has led to employees feeling more valued, respected, and empowered to contribute their best.

As a major and long-term initiative, we have embarked on deploying women in core shop floor production activities since last few years. This strategic move not only promotes gender diversity but also creates opportunities for women to thrive in traditionally male-dominated roles. As a result of our concerted efforts, diversity (i.e. women being part of our workforce) representation growing from 8% to 13%.

Policy for Women Employees

We are steadfast in our commitment to fostering an inclusive and diverse workplace, where every employee is treated with equality and respect, irrespective of their gender, caste, creed, or background. To uphold these values, we have

implemented robust policies aimed at addressing issues related to women in the workplace, ensuring a safe and secure environment for all employees.

Regular communication channels are established between women employees and management to effectively address concerns and enhance the overall workplace experience. International Women's Day, celebrated on March 8th, 2024, under the theme "Invest in women: Accelerate progress," provided a platform for women employees to engage with senior management, sharing their perspectives on equity, career growth, and the necessary support for their professional development. Additionally, we organised training sessions on self-defense to further enhance personal safety for women employees.

In line with our commitment to diversity and inclusion, we conduct special focus group meetings for all diverse employees to engage with the senior women leaders. These meetings serve as a platform for employees to share their perspectives, experiences, and career aspirations transparently. By investing in such focus groups, we foster a positive environment where all employees feel valued and supported in their professional journey.

Occupational Health Centre (OHC)

Prioritising the health and safety of our employees, AAL maintains a dedicated Occupational Health Centre (OHC) staffed with qualified medical professionals and equipped with emergency medical resources to address industry-specific health and safety concerns. Monthly health programmes conducted by our doctors educate employees on work-related health hazards and promote a healthy work-life balance. Our fully equipped state-of-the-art OHC facilities ensure prompt response to emergencies, including those arising from pandemic-related health challenges. Additionally, we have a company-owned ambulance ready for transportation in case of any casualties, with tie-ups established with major hospitals in Mysuru for referred cases treatment.

Safety, Health and Environment (SHE)

At AAL, our commitment extends to ensuring the safety, health, and environmental well-being of our workforce and surroundings. Our SHE measures encompass a comprehensive approach, starting from identifying and assessing risks associated with work activities, to devising strategies for risk management, implementing stringent safety protocols, providing personal protective equipment, maintaining a healthy work environment, and formulating emergency response plans.

We firmly believe that prioritising SHE is not only vital for the success and longevity of businesses but also essential for mitigating costs related to accidents and environmental harm, enhancing the overall health and wellness of employees, and fostering sustainable development. Furthermore, adherence to SHE standards is crucial for meeting legal and regulatory obligations, as well as fulfilling the expectations of stakeholders, including customers, investors, and the broader community.

Safety

We consistently implement a range of safety measures, building upon existing protocols and introducing new initiatives to enhance safety standards. Some notable initiatives include:

- Improved and enhanced the existing LockOut & TagOut system during servicing and maintenance activities with a scientific and engineering structured approach and a detailed roadmap.
- Undertook blind corner mapping to assess risks associated with forklift turning and movement, followed by the installation of convex mirrors at critical locations to improve visibility and prevent accidents.
- Implemented several initiatives as part of our significant emphasis on preventing slip, trip, and fall hazards across the plant. These include identifying mobile usage zones, labeling hazards on staircases, installing handrails at plant peripherals, providing secondary safety wire rope for overhead industrial fans, and removing protruding grouting bolts from the floor, install antiskid rubber mats.
- Observed Safety Day and Chemical Disaster Prevention Day to create awareness among employees about the importance of safety and safe chemical management.

Health

- Each year, we prioritise the health of our workforce by conducting annual and bi-annual medical check-ups for all employees, including new recruits, to ensure their well-being. These comprehensive check-ups encompass vision and colour vision tests, audiometry, skin assessments, and ENT examinations.
- Emphasised on holistic wellness, we organised a dedicated awareness session for women employees, enlightening them on the significance of proper nutrition and fitness. We believe such initiatives empower employees to excel in both their professional and personal lives.

Environment

We consistently uphold our environmental protection practices year after year while continually enhancing our efforts. Some recent initiatives include:

- Constructed an additional rainwater harvesting storage pond with a capacity of 1,000 KL, in addition to our existing capacity of 1200 KL, to increase harvested rainwater capacity and reduce freshwater consumption, aiming to achieve and sustain 70% water positivity.
- Implemented a scientific approach for the Storage, Handling, and Disposal of waste at the Scrap Yard Roofing and Other Waste storage area to prevent accidental spillage, land contamination, and rainwater-induced pollution.

- In line with our long-term sustainability goals and net-zero objectives, we have achieved a significant milestone with 70% of our energy consumption now coming from renewable energy sources.

These initiatives underscore our commitment to environmental stewardship. Additionally, our sustained ISO 14001:2014 Environment Management System certification reaffirms our dedication to environmental excellence.

Corporate Social Responsibility (CSR)

At AAL, we are dedicated to making a positive impact through our business practices, recognising that our responsibility extends beyond mere profitability. Our overarching goal is to contribute meaningfully to the ecosystem, ensuring equitable access to resources and opportunities for all individuals to flourish.

We take immense pride in reflecting on our journey, celebrating milestones, and reaffirming our commitment to fostering a brighter future for generations to come. As a responsible corporate entity, we acknowledge the symbiotic relationship between our success and the well-being of the communities we serve. Therefore, we are honoured to give back to these communities in various impactful ways, including:

Skill Development and Infrastructure Development in Academic Institutions

Our CSR initiatives from the past year underscore our commitment to improving educational infrastructure and fostering skill development within our communities. Through our support of local primary schools, we strive to create lasting positive impacts on the educational landscape. Our partnerships with implementing agencies ensure that our efforts reach those most in need, providing every deserving student with the opportunity to succeed.

In line with our commitment to skill development, we've partnered with Vidyavardhaka College of Engineering to establish a Skill Development Centre. This initiative aims to equip students with the technical and soft skills necessary to excel in today's rapidly evolving job market. The centre offers hands-on training in emerging technologies, including metallurgy.

Sponsorship for Annadana Hall Construction – An ISKCON Mysore Initiative

Last year, our company took a significant step by sponsoring the construction of part of an Annadana Hall, led by ISKCON Mysore. This initiative aligns with our dedication to social welfare and community development. The primary objective of the Annadana Hall is to provide free, nutritious meals to those in need. Our collaboration with ISKCON Mysore ensures that the project is managed by an organisation with a proven track record in community service and food distribution. Their expertise is crucial in making the Annadana Hall a sustainable and impactful endeavour.

Healthcare Projects

Last year, our company remained dedicated to improving public health by maintaining the Public Convenience Facility at Chamundi Hills, Mysuru. This facility, established by our company in previous years, plays a crucial role in promoting hygiene and public health in this renowned tourist destination. We ensure timely repairs and upgrades to keep the facility functional and inviting. This initiative not only provides essential sanitation services but also enhances public health and improves the overall visitor experience. By investing in such projects, we contribute to creating a safer, healthier, and more welcoming environment for both the community and visitors.

Carbon Sequestration

We initiated a substantial sustainability endeavour centered on carbon sequestration through an extensive tree planting campaign in the vicinity of Mysuru. This initiative underscores

our dedication to environmental stewardship and our efforts to mitigate climate change by augmenting the green canopy and fostering biodiversity in the area. Beyond its environmental impact, this initiative actively involves and educates the community, nurturing a shared sense of responsibility for preserving our planet. During the year, we have planted approximately 1000 saplings.

Animal Welfare

We've extended financial support to animal welfare organisations and implementing agencies dedicated to animal rescue, shelter management, and veterinary care. This funding sustains their crucial operations, enabling them to provide enhanced medical care and nutrition to animals in need. Through our contributions, our partner agencies can further their mission of safeguarding animal welfare. These efforts underscore our commitment to nurturing a humane and compassionate society, where the well-being of all living beings is cherished and safeguarded.

Risks and Concerns

We understand the vital role of a robust risk management structure in realising our strategic goals and ensuring sustainable development. Emphasising the importance of risk management, we have established a framework to mitigate and minimise both inherent and operational risks effectively.

Internal Control Systems

Your Company has established adequate internal control procedures, commensurate with the nature of its business and size of its operations. These controls have been designed to provide reasonable assurance regarding the maintenance of proper accounting controls for ensuring orderly and efficient conduct of its business, monitoring of operations, reliability of financial reporting, accuracy and completeness of the accounting records, the timely preparation of reliable financial information, protecting assets from unauthorised use or losses, prevention and detection of frauds and errors, and compliances with regulations. Your Company has continued its efforts to align all its processes and controls with global best practices.

To provide reasonable assurance that assets are safeguarded against loss or damage and that accounting records are reliable for preparing financial statements, the Management maintains a system of accounting and controls, including an internal audit process. Internal controls are evaluated by the Internal Audit team and supported by Management reviews. All audit observations and follow-up actions thereon

are tracked for resolution by the Internal Audit function and reported to the Audit Committee. Continuous training for the enforcement of AAL Code of Business Conduct is conducted across the organisation. The Code covers transparency in financial reports, ethical conduct, regulatory compliance, conflicts of interest review and reporting of concerns. Anti-fraud programmes including whistle blower/vigil mechanisms are operative across the Company.

Cautionary Statement

Statements in the Management Discussion and Analysis describing the Company's objective, projections, estimates and expectations may be 'forward-looking statements' within the meaning of applicable securities laws and regulations. Role of Board of Directors

The primary role of the Board is that of trusteeship to protect and enhance shareholder value through strategic direction to the Company. As trustees, the Board has the fiduciary relationship to ensure that the Company has clear goals aligned to shareholder value and its growth. The Board exercises its duties with care, skill, diligence and exercises independent judgement. The Board sets strategic goals and seeks accountability for their fulfillment. The Board also directs and exercise appropriate control to ensure that the Company is managed in a manner that fulfils stakeholder's aspirations and societal expectations.

Board Membership Criteria

The Nomination and the Remuneration Committee works with the entire Board to determine the appropriate characteristics, skills and required experience for the Board as a whole and for individual members. Members are expected to possess the required qualification, integrity, expertise and experience for the position. They should also possess deep expertise and insight in sectors/areas relevant to the Company and ability to contribute to the Company's growth.

The Board members are expected to rigorously prepare to attend and participate in all Board and applicable committee meetings. Each member is expected to ensure that their other current and planned future commitments do not materially interfere with the responsibilities with the Company.

Selection of New Director

The Board is responsible for the selection of new Directors. The Nomination and the Remuneration Committee makes recommendation to the Board on induction of new member after screening and the selection process, which is based on the nomination and remuneration policy of the Company.

Training of Board Members

All new Directors inducted to the Board are introduced to Company's culture, its operations, customers, practices, organizational structure, role and responsibilities, services, board procedures, matters reserved for the board, risk and the compliance details and such other details to familiarize the new Director about the Company.

A separate Independent Directors meeting was conducted during the year on January 31, 2024.

Code of Conduct

In compliance with the Companies Act, 2013 and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has framed and adopted Code of Conduct (the Code). This is applicable to all Directors, Independent Directors and Senior Management of the Company. The Code gives guidance and support needed for ethical conduct of business and compliance of law. All members of the Board and Senior Management personnel have affirmed the compliance with the Code as on March 31, 2024.

The Code is available on Company's website under below weblink:

<https://www.autoaxle.com/Downloads/Code%20of%20Conduct%20as%20of%20May'19.pdf>

Prevention of Insider Trading

The Board has formulated a policy on Trading of shares by an insider and code of conduct for regulating, monitoring and reporting of trading of shares by insider.

As per Regulation 9A(1) of SEBI (Prohibition of Insider Trading) Regulations, 2015, the Company has put in place adequate and effective system of internal controls to ensure compliance with the requirements given in the regulations to prevent insider trading.

The code lays down guidelines, procedures to be followed and disclosure to be made while dealing with the shares of the Company and cautioning them on consequences of non-compliances.

The copy of the policy is available on Company's website https://www.autoaxle.com/Investor_Policy.aspx

BOARD COMMITTEES

As on March 31, 2024, the Company has five committees namely Audit Committee, Stakeholders Relationship Committee, Nomination and Remuneration Committee, Corporate Social Responsibility Committee and Risk Management Committee. The Board Committees are set up under the formal approval of the Board to carry out respective roles which are considered to be performed by the members of the respective Board Committees. The Company's guidelines relating to Board Meetings are applicable to Committee Meetings, as far as may be practicable. Each Committee has the authority to engage outside experts, advisors and counsels to the extent it considers appropriate to assist in its work. Minutes of the proceedings of the Committee Meetings are placed before the Board meeting for perusal and noting. The Company Secretary acts as the secretary to all the Board Committees.

INDEPENDENT AUDITOR'S REPORT

To the Members of Automotive Axles Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Automotive Axles Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss, including the Statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent

of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matter described below to be the key audit matter to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to this matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matter	How our audit addressed the key audit matter
(a) Valuation of Inventories (as described in Notes	2.2 (i) and 8 of the financial statements)
We have identified valuation of inventories as a key audit matter due to the critical judgement exercised by the Company's Management in identifying the obsolete and slow-moving/ non-moving items of inventories and assessing the amount of allowance for inventories.	Our audit procedures in relation to identification of slow moving/ non-moving and obsolete inventory included the following:
The balance of inventories as at March 31, 2024 is ₹ 2502.34 million, net of provision amounting to ₹ 126.86 million was made. Inventories comprise raw material, work in progress, finished products and stores and spares.	<ul style="list-style-type: none"> Understood Company's internal control environment over receipts, consumption and dispatch of inventories and controls over valuation of inventories and determination of provision required for slow and non-moving inventories. We understood and evaluated the basis of identification of the obsolete and slow-moving / non-moving inventories. We tested the accuracy of the report on aged inventories on a sample basis. We evaluated the historical accuracy of allowance for inventories by comparing the actual loss on account of write off of obsolete and slow-moving/ non-moving inventories to the historical allowance recognized. We assessed the realizable value, on a sample basis, by comparing the inventory value with the subsequent sales prices of the finished goods.
The determination of provision in respect of inventories requires Management to exercise judgement in identifying the obsolete and slow-moving/ non-moving inventories and make estimates of the appropriate level of provision required.	

We have determined that there are no other key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Sub-section (11) of Section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g);
 - c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act;
 - f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above on reporting under Section 143(3)(b) and paragraph 2(i)(vi) below on reporting under Rule 11(g).
 - g) With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- h) In our opinion, the managerial remuneration for the year ended March 31, 2024 has been paid / provided by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act;
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – refer note 35 to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
 - iv.
 - a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 44 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 44 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with Section 123 of the Act to the extent it applies to payment of dividend.

As stated in note 14.2 to the financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and

the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for certain changes made, if any, using privileged/administrative access rights, as described in note 46 to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of the accounting software where audit trail has been enabled.

Annexure 1 referred to in paragraph 1 under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date

Re: Automotive Axles Limited

In terms of the information and explanation sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) Property, Plant and Equipment have been physically verified by the Management during the year and no material discrepancies were identified on such verification.
- (c) The title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in note 3.1 to the financial statements included in Property, Plant and Equipment are held in the name of the Company.
- (iii) (a) During the year the Company has provided loans as stated follows.

	Loans (₹ In Millions)
Aggregate amount granted/ provided during the year- Others	4.50
Balance outstanding as at balance sheet date in respect of above cases- Others	4.50

During the year the Company has not provided advances in the nature of loans, stood guarantee or provided security to companies, firms, Limited Liability Partnerships or any other parties.

- (b) During the year the investments made and the terms and conditions of the grant of all loans and investments made are not prejudicial to the Company's interest. During the year the Company has not provided guarantees, provided security and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties.
- (c) In respect of loans granted to companies, firms, Limited Liability Partnerships or any other parties, the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular except in the following case:

Name of the Entity	Amount (₹ In Millions)	Due date	Extent of delay (in days)

		3.37	AY 2022-23	
Goods and Service Tax Act	Goods and Services Tax	29.44	FY 2017-18 to FY 2023-24	Appellate Authority

- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) Term loans were applied for the purpose for which the loans were obtained.
- (d) The Company did not raise any funds during the year, hence, the requirement to report on clause (ix)(d) of the Order is not applicable to the Company.
- (e) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) & (f) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) No fraud by the Company or no fraud on the Company has been noticed or reported during the year.
- (b) During the year, no report under Sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

- (c) As represented to us by the Management, there are no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii) (a), (b) and (c) of the Order is not applicable to the Company.
- (xiii) Transactions with the related parties are in compliance with Sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business.
- (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- (xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- (xvi) (a) The provisions of Section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.
- (b) The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause (xvi)(b) of the Order is not applicable to the Company.
- (c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) (c) of the Order is not applicable to the Company.
- (d) The Group does not have more than one CIC as part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable to the Company.
- (xvii) The Company has not incurred cash losses in the current financial year and in immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.
- (xix) On the basis of the financial ratios disclosed in note 43 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act, 2013, in compliance with second proviso to Sub-section 5 of Section 135 of the Act. This matter has been disclosed in note 31 to the financial statements.
- (b) All amounts that are unspent under Sub-section (5) of Section 135 of Companies Act, 2013, pursuant to any ongoing project, has been transferred to special account in compliance of with provisions of Sub-section (6) of Section 135 of the said Act. This matter has been disclosed in note 31 to the financial statements.

Annexure 2 to the Independent Auditor's Report of Even Date on the Financial Statements of Automotive Axles Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Automotive Axles Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we

comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls With Reference to these Financial Statements

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted

accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes to the Financial Statements

for the year ended March 31, 2024

1. Corporate information

Automotive Axles Limited (“the Company”) is a joint venture company incorporated in 1981, between Bharat Forge Limited, Pune, India and Meritor Heavy Vehicle Systems LLC, USA. The Company is a public company domiciled in India. Its shares are listed on the BSE Limited and the National Stock Exchange of India Limited. The registered office of the company is located at Hootagalli Industrial Area, Off Hunsur Road, Mysore, Karnataka- 570018. CIN of the Company is L51909KA1981PLC004198.

The Company is primarily engaged in manufacturing of Axles and Brakes at Mysore, Rudrapur and Jamshedpur.

The financial statements were approved for issue in accordance with a resolution of the Company’s Board of Directors on May 27, 2024.

2. Material accounting policies

2.1. Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to financial statement.

The financial statements have been prepared on a historical cost basis, except for the following assets which have been measured at fair value:

- ▶▶ Certain financial assets at fair value (refer accounting policy regarding financial instruments), and
- ▶▶ Defined benefit plans-plan assets measured at fair value.

The accounting policies adopted for preparation and presentation of financial statement have been consistent with the previous year.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million (INR 000,000), except when otherwise indicated.

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

2.2. Summary of material accounting policies

(a) Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(b) Revenue from contract with customer

The Company earns revenue from contract with customer primarily from sale of goods. Revenue is recognised upon transfer of control of promised products to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer, it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Delivery occurs when the products have been shipped or delivered to the specific location as the case may be, the risks of loss has been transferred, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied. Sale of products include related ancillary services, if any. In contracts where freight is arranged by the Company and recovered from the customers, the same is treated as a separate performance obligation and revenue is recognised when such freight services are rendered.

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Notes to the Financial Statements

for the year ended March 31, 2024

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (I) Financial instruments – initial recognition and subsequent measurement.

The Company applies the practical expedient for short-term advances received from customers. That is, the promised amount of consideration is not adjusted for the effects of a significant financing component if the period between the transfer of the promised good or service and the payment is one year or less.

The Company typically provides warranties for general repairs of defects that existed at the time of sale. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Warranty provisions

The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise being typically up to three years.

As per the terms of the contracts, the company provides post-contact services / warranty support to some of its customers. The company accounts for the post-contract support / provision for warranty on the basis of the information available with management duly taking into the account the current and post technical estimates.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 32.

(c) Foreign currencies

The Company's financial statements are presented in INR, which is also the company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company's at their functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical

reasons, the Company uses average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

(d) Taxes

Tax expense comprises current tax expense and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Notes to the Financial Statements

for the year ended March 31, 2024

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(e) Property, plant and equipment

Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such costs include the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation on building and plant & machinery is provided using the Straight-Line Method and on other property, plant and equipment, using the reducing balance method over the useful lives estimated by the management basis technical assessment, as given in the table below:

Nature of Asset	Useful lives (in years)
Building- Factory	30
Building- Others (including Roads)	5-60
Plant & Machinery	2-15
Plant & Machinery – Windmill	9
Electrical installation	3-10
Furniture & Fixtures	5-10
Computers and servers	3-6
Office equipment's	5
Vehicles	4-8

Leasehold improvements are depreciated over the primary period of lease, or useful life, whichever is lower, on a straight-line basis.

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The Company reviews the estimated residual values and expected useful lives of assets at least annually. In particular, the Company considers the impact of health, safety and environmental legislation in its assessment of expected useful lives and estimated residual values.

(f) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Computer Software which is not an integral part of the related hardware is classified as an intangible asset. Intangible assets are amortised on a reducing balance method over the estimated useful economic life of 3 years.

The amortization period and the amortization method are reviewed at least at each financial year end.

(g) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company's lease assets class primarily consist of lease of land, building and premises.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Notes to the Financial Statements

for the year ended March 31, 2024

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Leasehold Land	▶▶	99 years
Building	▶▶	10 to 15 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments).

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

Leases are classified as finance leases when the transfer of substantially all risks and rewards of ownership occurs from the Company to the lessee. Amounts receivable from lessees under finance leases are recorded as receivables at a net basis, representing the Company's net investment in the leases and when the Company combines two or more contracts executed at or near the same time with the same counterparty (or related parties of the counterparty) and these contracts are treated as a single contract for accounting purposes. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(h) Impairment of non-financial assets

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

(i) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- ▶▶ Raw materials and components, stores and spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.
- ▶▶ Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost is determined on moving weighted average basis.

Notes to the Financial Statements

for the year ended March 31, 2024

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(i) Provisions and contingent liability

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Provisions, contingent liabilities are reviewed at each Balance Sheet date.

(k) Retirement and other employee benefits

Employees' State Insurance Corporation (ESIC) are defined contribution schemes whose contributions are charged to the statement of profit and loss for the period when they are due to the respective funds. There are no obligations other than the contributions to the respective funds.

Retirement benefit in the form of provident fund & Superannuation fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the

scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit gratuity plan. The Company contributes to a gratuity fund maintained by an independent insurance company. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- ▶▶ Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- ▶▶ Net interest expense or income

Leave encashment / Compensated absences

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gain/loss are immediately taken to the statement of profit and loss and are

Notes to the Financial Statements

for the year ended March 31, 2024

not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

(I) Financial instruments

Financial instruments are recognised when the Company becomes a party to the contract that gives rise to financial assets and financial liabilities. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

Financial Assets

Financial assets at amortised cost

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. The Company's financial assets at amortised cost includes trade receivables, Cash and cash equivalents, other bank balances and Net investment in leases and Security deposits included under other current and non-current financial assets.

Financial assets at fair value through OCI (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes investment in mutual fund.

Impairment of financial assets:

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recorded is recognized as an impairment loss or gain in statement of profit and loss.

Financial liabilities

Financial liabilities at amortised cost

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Notes to the Financial Statements

for the year ended March 31, 2024

The Company enters into deferred payment arrangements (acceptances) whereby overseas lenders such as banks and other financial institutions make payments to supplier's banks for purchase of raw materials and others. The banks and financial institutions are subsequently repaid by the Company at a later date providing working capital benefits. These arrangements are in the nature of credit extended in normal operating cycle and these arrangements for raw materials are recognised as Acceptances (under trade payables).

Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(m) Fair value measurement

The Company measures financial instruments, such as, mutual funds at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted prices (unadjusted) in active market or Net Asset Value (NAV) for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(n) Cash and cash equivalents

Cash and cash equivalents for purpose of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

(o) Dividend

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised, and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders.

(p) Borrowing costs

All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Notes to the Financial Statements

for the year ended March 31, 2024

(q) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.3.Changes in accounting policies and disclosures

New and amended standards.

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023 to amend the following Ind AS which are effective for annual periods beginning on or after 1 April 2023. The Company applied for the first-time these amendments.

(i) Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Company's financial statements.

(ii) Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more

useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's financial statements.

(iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.

The Company previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings as at 1 April 2022.

Apart from these, consequential amendments and editorials have been made to other Ind AS like Ind AS 101, Ind AS 102, Ind AS 103, Ind AS 107, Ind AS 109, Ind AS 115 and Ind AS 34.

2.4.Standards notified but not yet effective.

There are no standards that are notified and not yet effective as on the date.

14.1 Nature and purpose of reserves

a) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of Section 52 of the Companies Act, 2013.

b) Retained Earnings

Retained earnings are the profits/(loss) that the company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

c) General reserves

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

32 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods

Other disclosures relating to the Company's exposure to risks and uncertainties includes:

- Capital management (Note 42)
- Financial risk management risk and policies (refer note 41)
- Sensitivity analyses disclosures (refer note 41)

32.1 Judgements:

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

a) Lease classification – Company as lessor:

The Company has entered into lease agreements with Meritor HVS India Limited ('MHVSIL') and Meritor Commercial Vehicle Systems India Private Limited ('MCVSIPL') to obtain a land on lease from MHVSIL and to construct test lab building ('Building') and lease to MCVSIPL for R&D activities. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, the present value of the minimum lease payments amounts to substantially all of the fair value of the property and accounted for the contracts as finance lease. [Refer Note 34(b)]

Notes to the Financial Statements

for the year ended March 31, 2024

(All amounts in Indian Rupees Million, unless otherwise stated)

32.1 Judgements: (Contd.)

b) Determination of significant influence over investee:

In accordance with the provisions of the Electricity Act applicable to a Captive User, the Company invested INR 22.50 million in exchange for a 26% equity shares in Parola Renewables Private Limited (Parola). The Company lacks significant influence over the operations of Parola. Therefore, it is not classified as an Associate under the guidelines of Ind AS 28 "Investments in Associates and Joint Ventures".

Furthermore, in accordance with the provisions of the Electricity Act applicable to a captive user, the Company will subscribe to and pay for 26% equity shares of Torrent Saurya Urja 3 Private Limited for a purchase consideration of INR 41.47 million. As at March 31, 2024, the Company has made investment of INR 2.80 million. However, the Company does not have significant influence over the operations of Torrent. Therefore, it is not classified as an Associate under the guidelines of Ind AS 28 "Investments in Associates and Joint Ventures."

32.2 Estimates and assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a) Defined benefit plans (gratuity benefits):

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables. These mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

b) Provision for inventories:

Management reviews the aged inventory on a periodic basis. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow-moving items. The management also evaluates on the usability of existing inventories as a result of technological and regulatory changes in the automotive sector if any and provides for the required allowances for slow moving/ non-moving and obsolete inventory. This review also involves comparison of the carrying value of the aged inventory item with the respective net realisable value. Management believes that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

c) Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

d) Provision for warranty:

Warranty estimates are established using historical information on the nature, frequency and average cost of warranty claims and also management estimates regarding possible future outflow on servicing the customers for any corrective action in respect of product failure.

Notes to the Financial Statements

for the year ended March 31, 2024

(All amounts in Indian Rupees Million, unless otherwise stated)

32.2 Estimates and assumptions: (Contd.)

e) Leases - estimating the incremental borrowing rate:

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

f) Useful lives of property, plant and equipment:

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. This reassessment may result in change in depreciation and amortisation expected in future periods.

33 Segment reporting

The Board of Directors is the Chief Operating Decision Maker (CODM) and monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. The Company is predominantly engaged in the business of manufacturing and sale of automotive components, which constitutes a single business segment and is governed by similar set of risks and returns. The operations of the Company primarily cater to the market in India, which the Chief Operating Decision Maker (CODM) views as a single segment. The CODM monitors the operating results of its single segment for the purpose of making decisions about resource allocation and performance assessment.

Revenues from transactions with a single external customer amounting to 10 per cent or more of the Company's revenues is INR 17,497.32 million (March 31, 2023: INR 18,182.87 million).

The Company is domiciled in India. The Company's revenue from operations from external customers primarily relate to operations in India and all the non-current assets of the Company are located in India.

34 Leases

a) Company as a lessee

- i) The Company has entered into leases contracts consisting of the Company's manufacturing facilities which includes land and buildings. These leases are for a period of ten to fifteen years and lease of land is for 99 years with renewal option included in the contracts. The Company is restricted from assigning and sub leasing the lease assets. The Company's obligations under its leases are secured by the lessor's title to the leased assets. The Company also has certain leases with lease terms of 12 months or less. The Company applies the 'short-term lease' recognition exemption for these leases.

Below are the carrying amounts of right-of-use assets (ROU) recognised and the movements during the year:

	Leasehold Building	Leasehold Land (refer note 6)	Total

37 Employee benefits

Defined contribution plans

A. Provident fund and employee state insurance scheme

The Company makes contributions to provident fund and employee state insurance scheme ("Schemes"), which are defined contribution plan for eligible employees and the contributions are charged to the statement of profit and loss of the year when the contributions to the respective funds are due. Under the Schemes, the Company is required to contribute a specified percentage of the salary to fund the benefits. The Company recorded an expense of INR 54.48 million (March 31, 2023: 52.71 million) towards contribution of provident fund and INR 4.48 million (March 31, 2023: INR 4.38 million) towards contribution of employee state insurance scheme in the statement of profit and loss.

B. Superannuation fund

Retirement benefits in the form of superannuation fund (being administered by LIC) are funded defined contribution schemes and the contributions are charged to the statement of profit and loss of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable. The contributions for the year ended March 31, 2024 is INR 7.03 million (March 31, 2023: INR 6.55 million).

Defined benefit plans

The Company has a defined benefit gratuity plan for its employees. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. The Company makes provision of such gratuity liability in the books of accounts on the basis of actuarial valuation as per the projected unit credit method.

The following tables summarize the components of net benefit expense recognized in the Statement of Profit and Loss and the funded status and defined benefit obligation recognized in the Balance Sheet.

37 Employee benefits (Contd.)

The estimates of future salary increases considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Assumptions regarding future mortality are based on published statistics and mortality tables.

Risk analysis

The Company is exposed to the following risks in the defined benefits plans :

Investment Risk: The present value of the defined benefit obligation is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan assets is below this rate, it will create a plan deficit.

Interest risk: A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by increase in the return on the plan's debt investments.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary growth risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan's liability.

AA quantitative sensitivity analysis for significant assumptions as at March 31, 2024 and March 31, 2023 is as shown below:

	Sensitivity Level	Defined benefit obligation	
		March 31, 2024	March 31, 2023
		Change in DBO	Change in DBO
Discount rate	1% increase	(15.17)	(14.22)
	1% decrease	16.58	15.50
Further salary increase	1% increase	17.04	15.81
	1% decrease	(15.81)	(14.71)
Attrition rate	1% increase	2.75	2.66
	1% decrease	(2.95)	(2.84)
Mortality rate	10% increase	0.13	0.13

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

The following payments are expected contributions to the defined benefit plan in future years:

	31 March 2024	31 March 2023
Five Years pay-outs		
Year 1	27.37	18.22
Year 2	20.35	25.79
Year 3	39.86	28.86
Year 4	31.67	35.17
Year 5	46.63	26.85
Next 5 years	106.06	117.55
Contributions likely to be made for the next one year	0.97	2.37

The average duration of the defined benefit plan obligation at the end of the reporting period is 9.13 years (March 31, 2023: 8.59 years).

41 Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings, lease liabilities and trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, short term investments and cash and cash equivalents that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:"

i. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings. The sensitivity analyses in the following sections relate to the position as at March 31, 2024 and March 31, 2023. The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt.

Notes to the Financial Statements

(All amounts in Indian Rupees Million, unless otherwise stated)

41 Financial risk management objectives and policies (Contd.)

The analyse exclude the impact of movement in market variables on the carrying values of gratuity and other post retirement obligations and provisions.

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2024 and March 31, 2023.

a. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. The Company manages its interest rate risk by monitoring the movements in the market interest rates closely. With all other variables held constant, the Company's profit before tax and equity is affected through the impact on floating rate borrowings, as follows:

	Increase/ (decrease) in basis points	Effect on profit before tax	Effect on Equity
March 31, 2024	50	(0.31)	(0.23)
	(50)	0.31	0.23
March 31, 2023	50	(0.52)	(0.39)
	(50)	0.52	0.39

b. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). The Company manages its foreign exchange fluctuation risk by monitoring the movements in the exchange rate in the market closely. As on March 31, 2024, the Company has following foreign currency exposures:

	Currency	March 31, 2024		March 31, 2023	
		in foreign currency	INR	in foreign currency	INR
Trade payables	USD	0.04	3.03	0.60	49.40
	EURO	-	-	0.12	10.60
	SEK	0.13	0.98	-	-

Foreign currency sensitivity

The following table demonstrate the sensitivity to a reasonable possible change in EUR, USD and SEK exchange rates, with all other variables held constant. The impact on the Company's profit before tax due to changes in the value of monetary assets and liabilities is as under:

5% increase and decrease in foreign exchange rates will have the following impact on profit before tax and equity are as follow:

	Change in USD	Effect on profit before tax	Effect on Equity
March 31, 2024	5%	(0.15)	(0.11)

C. Commodity price risk

Commodity price risk results from changes in market prices for raw materials, mainly steel, forgings and casting which forms the largest portion of Company's cost of sales.

The principal raw materials for the Company products are steel, forgings and casting which are purchased by the Company from the approved list of suppliers. Most of the input materials are procured from domestic vendors. Further, a significant portion of the Company's volume is sold based on price adjustment mechanism which allows for recovery of the changed raw material cost from its customers. The Company is affected by the price volatility of certain commodities. However the Company is able to pass on price fluctuations to its customers resulting from changes in commodity prices, thereby neutralizing the impact on profit due to commodity price risk.

ii. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions, other receivables and deposits, and other financial instruments.

a. Trade Receivable

The Company mainly sells to its related parties, OEMs and Tier I companies, having long standing relationship with the Company. Outstanding customer receivables are regularly monitored and reconciled. At March 31, 2024, receivable from Company's top 3 customers accounted for approximately 99% (March 31, 2023: 99%) of all the receivables outstanding. An impairment analysis is performed at each reporting date on an individual basis for major clients. Based on historical experience, the Company does not have any material bad debts. The Company does not hold collateral as security. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. Further, for movement in provision for doubtful receivables during the year refer note 10.

b. Bank Balance and other Financial Assets

Credit risk from balances with banks is managed by the Company in accordance with its policy. Investments of surplus funds of INR 209.93 millions (March 31, 2023: Nil) are made only with approved counterparties and within credit limits assigned to each counterparty. Further other financial assets include net investment of lease of INR 112.93 millions, (March 31, 2023: INR 113.25 millions) receivables from related party. Based on historical experience, the Company does not have any material bad debts.

41 Financial risk management objectives and policies (Contd.)

iii. Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that the funds are available for use as per the requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The Company consistently generates sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual payments:

42 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves. The primary objective of the Company's capital management is to maximise the shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company's gearing ratio, which is total borrowings divided by total capital employed is as below:

	31 March 2024	31 March 2023
